

We Share by OrenGen**Admin & Operations Standard Operating Procedures**

OrenGen Worldwide LLC · Confidential · v1.1 (June 2026)

WeShare Internal Operations SOP

Confidential — OrenGen Internal Use Only. Do not share with affiliates, partners, or external parties.

1 · Application Review

Affiliates

Auto-approve unless flags fire: disposable email, duplicate identity (email/phone/Connect match), prior termination record, suspicious volume from one IP. Flagged applications → manual review within 1 business day. Document decision in user record.

Sales Partners

Screening call → verify phone/communication skills → Agreement + W-9 + Connect → certification role-play → provision CRM seat + OrenGen phone number → assign first lead batch. **Target: application-to-live ≤ 5 business days.**

Partner Leaders

Internal promotion only — never offered at signup, never offered to Affiliates. Initiated by OrenGen leadership based on demonstrated performance, coaching ability, and trust. Process: leadership nomination → verbal offer → updated agreements → access provisioning (team oversight tools) → announce to relevant Partners. Document in personnel record.

2 · Daily Checklist (10 minutes)

1. events table: any rows status='failed' → reprocess or escalate.
2. Fraud flags queue: self-referral matches, click anomalies (one IP > 50 clicks/day), lead-quality complaints.
3. Lead SLA monitor: leads with no first touch in 4+ business hours → warn partner; 48h → recycle.
4. Cancellation signals → notify closing partner for save call.

3 · Weekly Payout Run (Every Friday)

Commissions are paid weekly every Friday. This is a core program promise — do not miss or delay without documented reason.

1. Open admin payout view: all approved commissions, prior 7-day period (Mon–Sun), grouped per user.
2. **Verify**: total out vs. Stripe revenue for the period. Setup commissions should not exceed ~27.5% of collected setup fees (blended affiliate + partner rate). Monthly commissions should not exceed ~27.5% of collected MRR. Anything higher: stop and trace before proceeding.
3. Exclusions auto-applied: balances < \$25 (rollover to next Friday), no Connect account (notify user), first-payout 14-day holds, accounts under active review.
4. Click **Approve** → n8n WF-E executes Stripe transfers → commissions flip to paid → statements email automatically.
5. Spot-audit 3 random payouts to the ledger. File the run summary with date, total count, and total amount.

Payout schedule reminder: The program guarantees weekly Friday payouts. If Friday falls on a bank holiday, process Thursday. Document any exception.

4 · Commission Calculation Reference

Role	Setup Rate	Monthly Rate	Duration
Affiliate — Catalyst	10%	5%	12 months
Affiliate — Builder	15%	5%	24 months
Affiliate — Architect	20%	7.5%	Life
Affiliate — Sovereign	25%	10%	Life
Sales Partner	25%	25%	Life
Partner Leader (override)	+5% of team's setup	+5% of team's monthly	Life

All percentages applied to the **actual package price** (Standard, Professional, or Premium). There are no flat dollar rates — all commissions are calculated dynamically from the sale amount.

5 · Fraud Review SOP

Signals: burst clicks from one IP/UA, lead email domains matching affiliate, fake-pattern form fills, refund rate > 20% on one affiliate's deals, recruits with zero clicks but instant "sales."

Actions ladder: hold payout → request traffic-source explanation (48h response window) → void fraudulent commissions (ledger void, memo reason) → strike or terminate per handbook. Document everything in the user record. The ledger is the evidence.

6 · Dispute Resolution SOP

1. Intake via dashboard form (30-day window from statement date).
2. Trace: commission → source_event_id → raw webhook payload → attribution chain (click → lead lock → deal).
3. Rule within 5 business days, in writing, with the trace attached.
4. If we erred: corrective ledger entry (never edit the original row). If we didn't: cite the rule and the trace.

7 · Clawback Execution

Stripe charge . refunded auto-creates negative ledger entries (WF-D). Manually verify: all beneficiaries on the deal reversed (partner + affiliate + override), deal marked refunded, affected users notified with statement note. Negative balances carry forward to the next payout cycle.

8 · Termination Procedure

1. Document violations + evidence in user record.
2. **For-cause:** set user suspended → revoke portal/CRM access → void unpaid commissions with memo → written notice citing handbook section.
3. **Without-cause / program exit:** pay out all earned commissions on next Friday cycle; partner residuals continue per handbook §11.
4. Partners: reassign open leads to pool same day; recover number assignment.

9 · KPIs — Monitor Weekly

- Affiliate activation rate (signup → first sale ≤ 14 days — Fast Start working if >20%)
- Clicks → lead → close conversion by source
- Effective payout % of revenue (benchmark: ≤30% blended)
- Refund rate by affiliate and partner
- Partner SLA compliance (% of leads touched within 4 hours)
- Residual churn rate (clients lost per week)
- Builder+ promotion velocity (army growth leading indicator)
- Partner Leader pipeline (who's performing at Leader level — promote proactively)

10 · Package & Pricing Reference

Package	Setup Fee	Monthly Fee	Partner Setup (25%)	Partner Monthly (25%)
Standard	\$997	\$247	\$249.25	\$61.75
Professional	\$2,497	\$497	\$624.25	\$124.25
Premium	\$4,997	\$997	\$1,249.25	\$249.25
